USE LESS WATER AND ENERGY
WITH OUR BEST PERFORMING DISHWASHERS EVER*

EFFICIENT CLEANING THAT'S EASY ON THE EYES

New Whirlpool brand dishwashers not only feature new design upgrades, they also **use just the right amount of time, energy and water** so your customers can spend less time in the kitchen and less money on utility bills. Sleek styling, stainless steel interiors, fully integrated electronic controls and streamlined consoles with water and energy saving cycles make these models easy to look at and use.

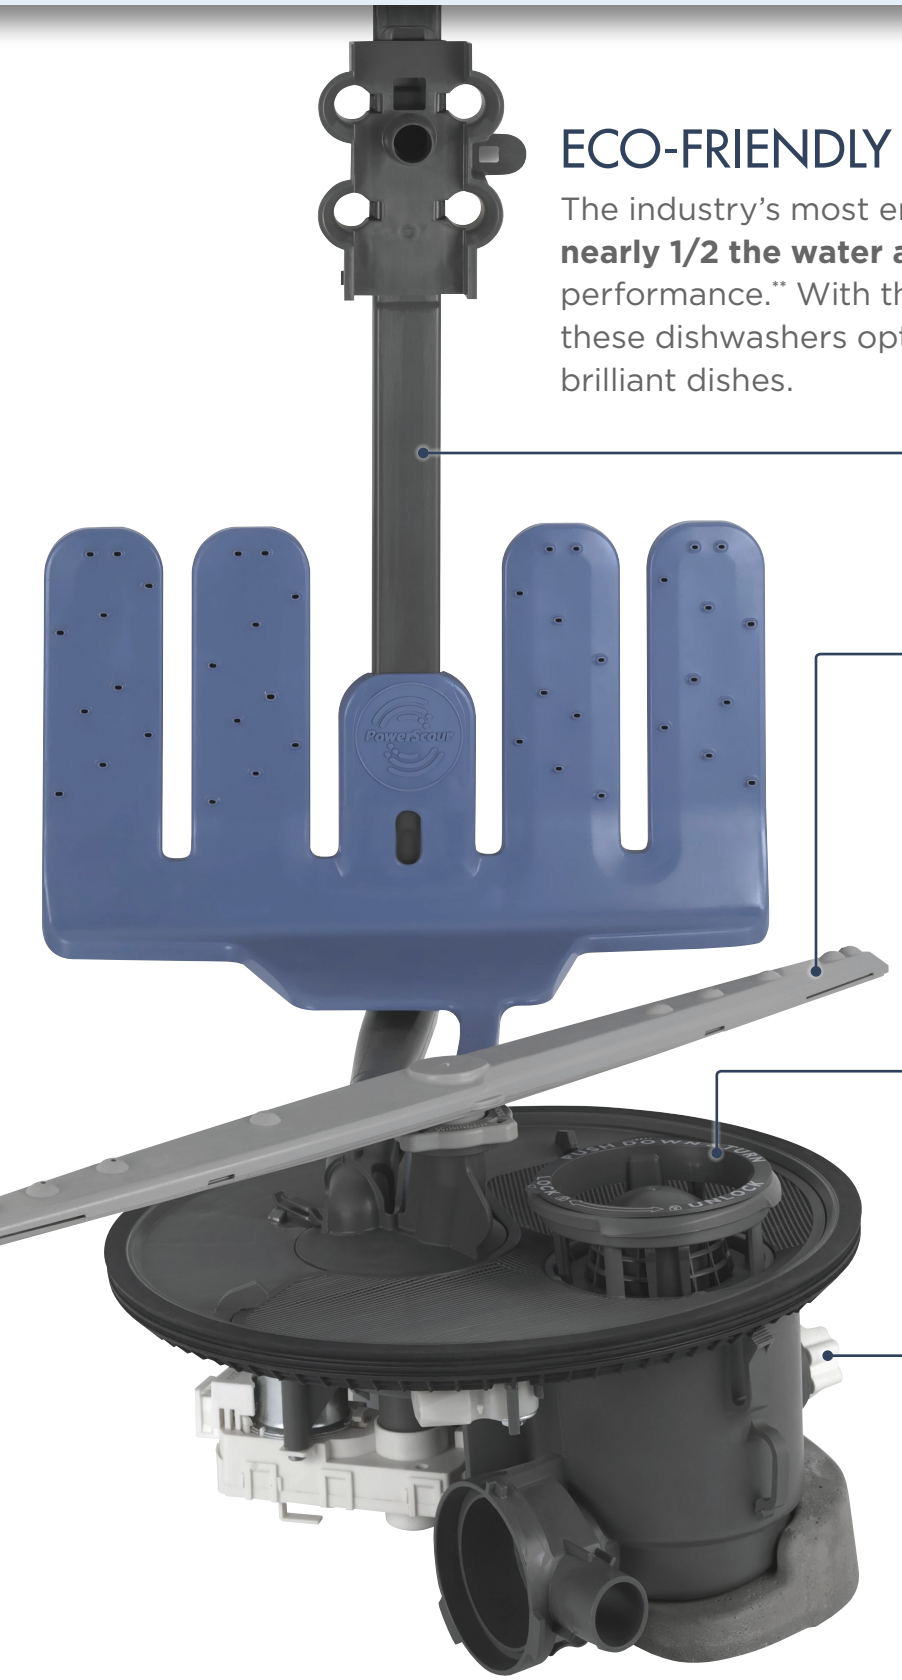
OPTIMAL PERFORMANCE
WITH GREATER ENERGY AND WATER SAVINGS



ECO-FRIENDLY CLEANING

The industry's most energy-efficient dishwashers* **use nearly 1/2 the water and energy** without compromising performance.** With the resource-efficient wash system, these dishwashers optimize cleaning and quietly deliver brilliant dishes.

TARGETED WASH ZONES

Alternates water flow between the upper, middle and lower wash arms for optimal performance.

OPTIMIZED SPRAY ARMS

High-pressure spray arms with targeted spray jets shoot water from five angles to **break down food and clean dishes and silverware**.

ALL NEW FILTERS

The triple filtration system removes food particles and other soils to **keep water clean and use less water and energy**. (See next page for details.)

AUTO SOIL SENSOR

Monitors water clarity and uses the right amount of water by adjusting the cycle to the appropriate soil level.

ADVANCED MOTOR

Efficiently optimizes water pressure to targeted spray jets which results in a **reduction of energy use and operating noises**.

EFFICIENT CYCLES

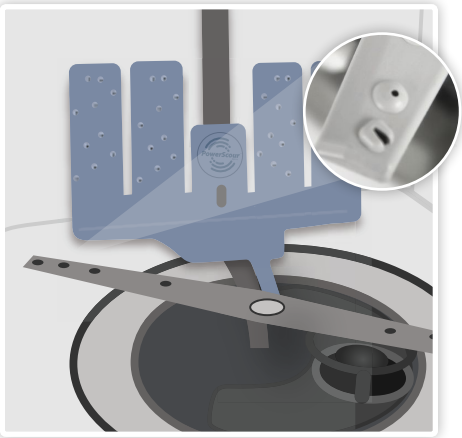
Designed to achieve better performance while using less water and energy.

NOTE: Not all features are available on all models.

*Based on energystar.gov published annual energy usage of Whirlpool® resource-efficient models versus competitive dishwashers MSRP $749 and below.
**Compared to a conventional dishwasher manufactured before 2006.

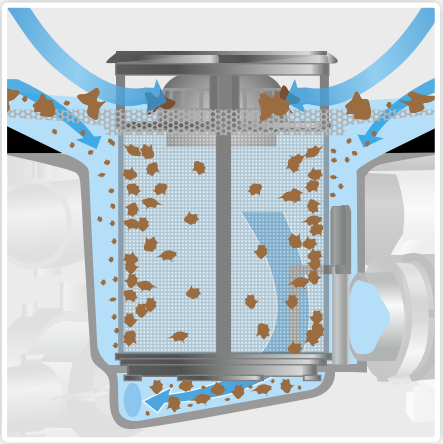
IT'S ALL ABOUT TEAMWORK

Three levels of filtration work together to capture food particles and stop them from sticking to dishes. A large filter screen at the bottom of the dishwasher, a coarse filter and a micro-fine filter cup capture soils to keep the dishes clean.



1. Optimized spray arms and targeted wash zones deliver concentrated bursts of water.

2. Auto soil sensor, advanced motor and efficient cycles work together to deliver optimal cleaning.



3. The triple filtration system's filter screen, coarse filter and micro-fine filter cup capture large and small food particles and dispose of them through the bottomless filter.

*Based on energystar.gov published annual energy usage of Whirlpool® resource-efficient models versus competitive dishwashers MSRP $749 and below. †Based on the Consortium for Energy Efficiency product qualifications. Visit cee1.org for more information.

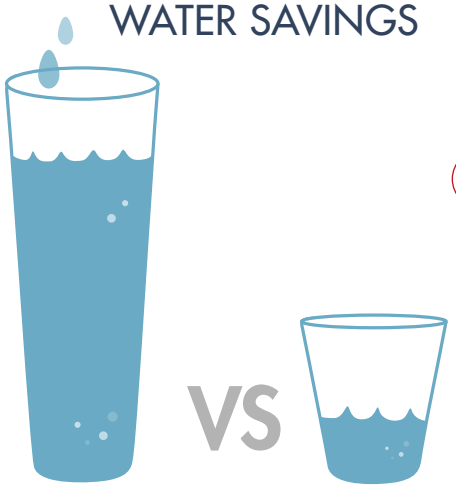
WATER SAVINGS



27 GALLONS (handwashing per load)††

2.7 GALLONS (dishwasher per load)‡

STOP HANDWASHING AND SAVE BIG

Customers may think they're saving water by handwashing, but they're not! Make sure they know about how Whirlpool® ENERGY STAR® and CEE Tier 2‡‡ qualified dishwashers may use as little as 2.7 gallons per load.‡

IT'S BETTER THAN A HOT SHOWER

Cleaning doesn't have to stop in the dishwasher. Thanks to our resource-efficient models, your customers can save enough water per load to take 1,250 showers a year.¥

SAVINGS YOU CAN SINK YOUR TEETH INTO

Get your customers excited about Whirlpool brand's extreme water savings. Tell them how they can save enough water per dishwasher load to brush their teeth 10,000 times per year with our resource-efficient dishwasher.¥¥

ENERGY-SAVING FEATURES

DYNAMIC FILLS

All new dishwashers offer dynamic fills that monitor the water level and **ensure the correct amount of water is used for each load**. All cycles include dynamic fills that change for every cycle and even within the cycle.

AUTO SOIL SENSOR

Optimizing every cycle for **reliable cleaning results**, this sensor measures soil level. It will even adjust the temperature to match soil level and make sure dishes come out clean, without wasting resources.

NOTE: Not all features are available on all models.

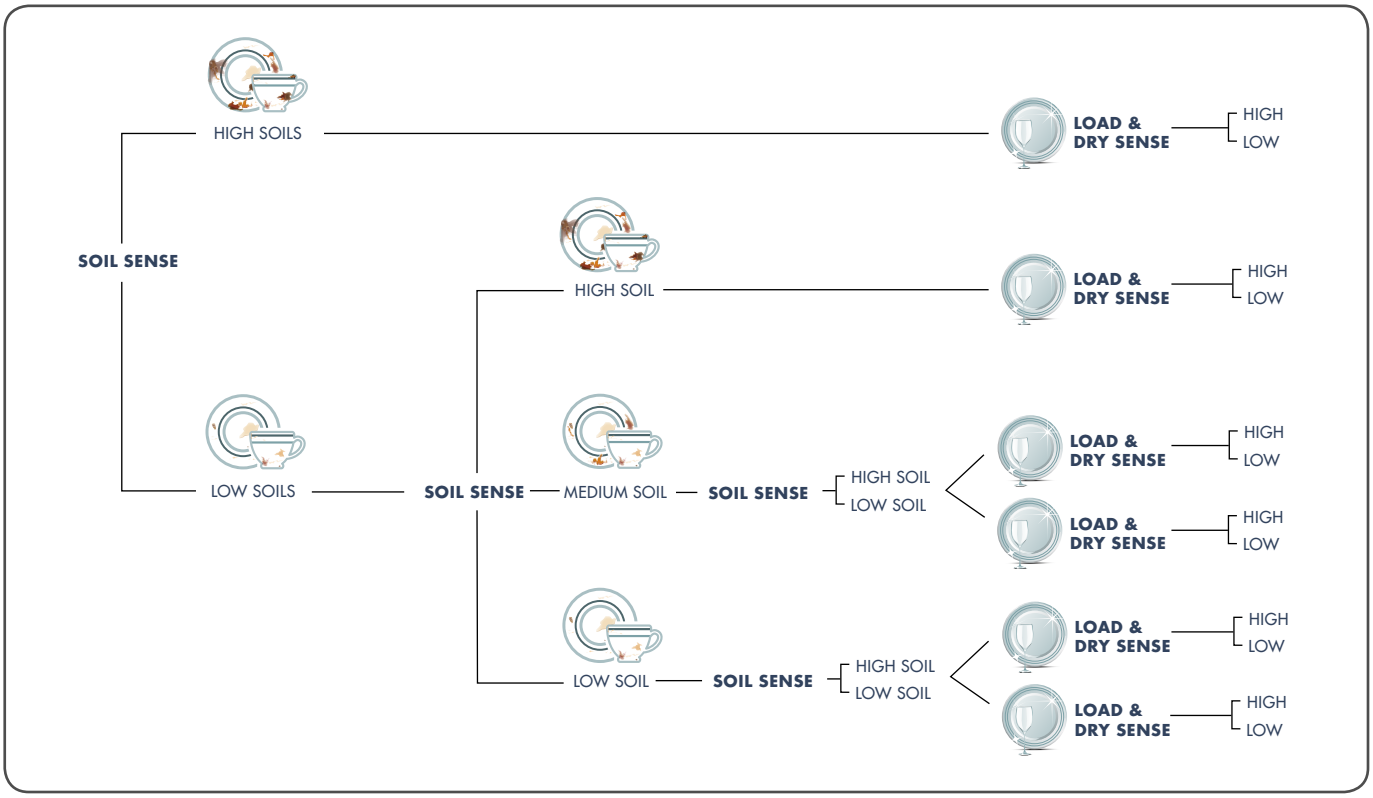
*Compared to a conventional dishwasher manufactured before 2006. **Based on 2007 national average water cost of $4.53 per 1,000 gallons. †Standard dishwasher life per AHAM. ††Based on 2007 DOE Guide for Water Consumption, ENERGY STAR® Automatic Dishwasher vs. Handwashing. ‡Based on Normal cycle, low soil level. ‡‡Based on the Consortium for Energy Efficient product qualifications. Visit cee1.org for more information. ¥Based on 1/2 gallon, elmwoodpark.org. ¥¥Based on 4 gallons per shower, elmwoodpark.org.

THE CLEAN YOU NEED, THE SAVINGS YOU WANT

With the touch of a button, your customer can achieve the right **wash and dry** settings for their load. The Sensor cycle achieves better performance by using two separate sensors to measure temperature, soil level and load size up to 4 times during the wash cycle. It **cleans tough soils 35% better§ while using the right amount of time, energy and water**.

EXPLORE THE POSSIBILITIES

The Sensor cycle provides a convenient way to customize washing and drying to each load. See for yourself how Whirlpool brand dishwashers offer up to 12 soil level solutions and up to 4 separate sensing stages.



ECO WASH CYCLE

Our most efficient dishwasher cycle helps minimize energy and water usage while cleaning dishes.§§ Perfect for lightly to moderately soiled dishes, this cycle uses fewer resources.

ECO DRY OPTION EXCLUSIVE

The **industry's first Eco Dry option** is the most efficient drying option on our dishwashers.§§ It **uses 70% less energy**, compared to Heated Dry.

§Compared to previous wash system. §§Available on Whirlpool® models MSRP $449 and above.

Doing dishes is easier than ever with the new and improved PowerScour™ option. It takes care of everything from casserole dishes to pots and pans, and will even **clean large cookware without soaking or scrubbing**.

IT'S TIME TO LET GO OF SOAKING AND SCRUBBING

GET A LOAD OF THE NEW POWERSCOUR™ OPTION!

Rubber gloves and sponges are a thing of the past with the next generation of Whirlpool brand dishwashers. The improved PowerScour™ option now uses 40 targeted spray jets in a larger designated wash area to **scour away baked on food** and deliver **twice the coverage to clean your large pots and pans without soaking or scrubbing.**

NEW POWERSCOUR™ MODULE

PREVIOUS POWERSCOUR™ MODULE

TALLER DESIGN CLEANS LARGE ITEMS BETTER

ASK

- How often have you left casserole dishes in the sink overnight to get them clean?
- How much water do you waste soaking or scrubbing dishes?

TELL

With the new PowerScour™ option, soaking and scrubbing is a thing of the past. This option's targeted spray jets blast away baked-on food and clean even large pots, pans and dishes. It even uses less water than pre-rinising, soaking and scrubbing.

SELL

Refer to the specifications page to find out which Whirlpool® dishwashers feature the new PowerScour™ option.

NOTE: Not all features are available on all models.

40 TARGETED SPRAY JETS

TWICE THE COVERAGE

The redesigned PowerScour™ option cleans better than ever before. Thanks to the taller design and additional targeted spray jets, cleaning your tough, baked-on soils is easy.

BEFORE

AFTER

BONUS: MAKE ROOM FOR BIGGER DISHES

Use the fold-down tines with the new PowerScour™ option to create space for larger items and deliver better performance.

GET THE JOB DONE WITH NEW CYCLES AND OPTIONS

Whirlpool® dishwashers feature a variety of cycles and options to make cleaning up after a quick breakfast or large dinner party easy. Now your customers can stop worrying about that pile of dishes in the sink and clean on their own time.

OVERNIGHT CYCLE

EXCLUSIVE

The Overnight cycle quietly soaks dishes with an extended prewash and then runs a tough soil wash. This industry-exclusive, 7-hour cycle optimizes water efficiency, without using more energy or disrupting household activities.

The secret to the Overnight cycle is the extended prewash. It soaks dishes for 4 hours with only 1-1/4 gallons of water to remove stuck-on food without using unnecessary water or energy.

1-HOUR WASH CYCLE

When your customer is in a rush, this cycle offers great wash performance and cleans their dishes in nearly half the time.*

TOP RACK WASH OPTION

The Top Rack Wash option saves time and energy by washing dishes in the top rack.

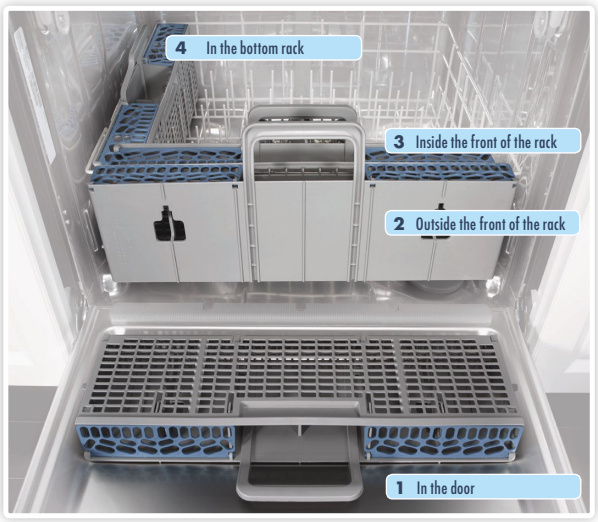
NSF CERTIFIED SANI RINSE OPTION

This option sanitizes dishes by eliminating 99.999% of food soil bacteria, as certified by NSF International.

*Compared to Normal cycle with lightly soiled loads.

THE SPACE THEY NEED
WHERE THEY NEED IT

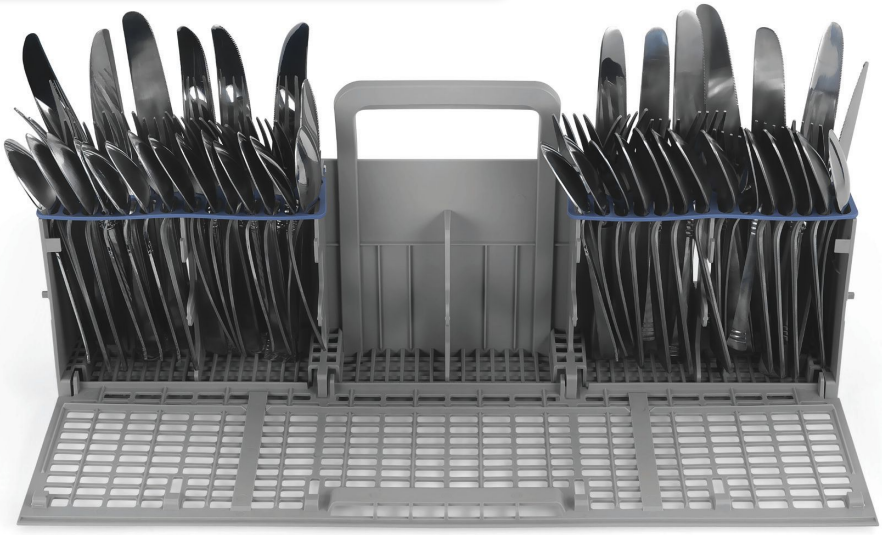
Whirlpool brand improvements offer the flexible capacity your customers need. Thanks to the enhanced AnyWare™ Plus silverware basket's extra space for 12 more pieces of silverware and our dishwashers' 15 place-setting capacity, your customers can host a dinner party for 15 guests and clean up with a single load of dishes.

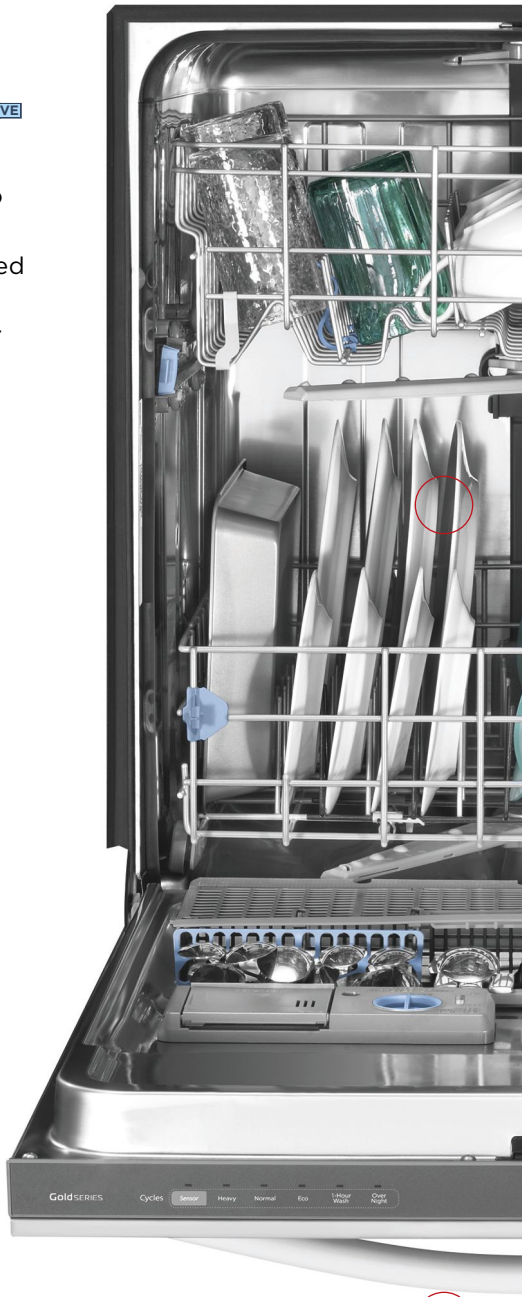


ANYWARE™ PLUS SILVERWARE BASKET

EXCLUSIVE

The improved AnyWare™ Plus silverware basket now holds up to 12 more pieces of silverware for maximum flexibility and is designed to clean better. The silverware basket fits in up to **4 positions** for **100% usable rack space**.





BASKET ENHANCEMENTS

- **Improved, sleek appearance** offers easy access to **small items** inside the basket
- Unload items easily with two-staged opening and a flat bottom that can be placed on the counter
- Taller handle **makes room for more silverware**
- **Improved cleaning** compared to previous Whirlpool® dishwasher silverware baskets

NOTE: Not all features are available on all models.

Model: WDT910SAYM

CUSTOMIZED CLEANING FOR EVERY LOAD

Easily wash large or odd-shaped items with Whirlpool brand's new line of dishwashers. With rack features that offer customized cleaning options, your customers will have the space they need to clean up after every meal.

EZ ADJUSTABLE TINES

EXCLUSIVE

Innovative lower-rack tines move left or right to make room for larger items and offer twice the space between tines to fit larger bowls for optimal cleaning. Show off the racks on your sales floor using large bowls.

NEW EZ-2-LIFT™ ADJUSTABLE UPPER RACK

Improved to allow for **100% usable rack space**, the upper rack features a narrow profile that doesn't interfere with loading. It adjusts 2" up or down to fit larger items.

NYLON RACKS

Durable nylon coating **resists rust and prevents scratching**. Increased space between tines provides optimal cleaning for larger items.

PREMIUM RAIL SYSTEM

The premium rail system in the upper rack features improved gliding wheels that **slide easily and quietly**.

FOLD-DOWN TINES

Create space for larger items or **secure small items**, like lids and measuring spoons, with the fold-down tines.

CUP SHELF

A cup shelf allows you to stack two levels of coffee mugs and secure glassware.

NEW ADJUSTABLE UPPER RACK

Just because a dishwasher doesn't have the new EZ-2-Lift™ adjustable upper rack, doesn't mean there isn't room for tall or odd-shaped items. Select dishwashers feature the new adjustable upper rack, with two preset position options.

LEADING-EDGE DESIGN
THAT'S PERFECT FOR THE HOME

TREND-SETTING STYLE

Whirlpool brand dishwashers fit seamlessly into your customer's home and lifestyle. White plastic, slate plastic and stainless steel tub options and advanced features like **fully integrated electronic controls, 2-1/2" virtually flush consoles and finished corners** add a modern look to your customer's contemporary kitchen.

Model: WDF730PAYM

SLEEK EXTERIOR

A virtually flush door with a streamlined 2-1/2" console **creates a smooth exterior** that is easy to clean.

FULLY INTEGRATED CONTROLS AND IMPROVED HANDLE

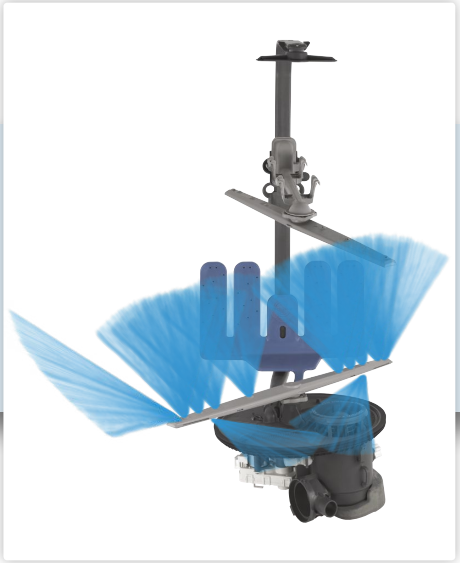
A hidden control panel and full-width metal handle provide a **modern exterior**, while preventing unwanted cycle changes or accidental operation.

FINISHED CORNERS

Whirlpool® dishwashers now feature **full-length finished corners** that wrap over the top of the door to create a continuous, sleek exterior.

Model: WDT910SAYM

NOTE: Not all features are available on all models.



A WHOLE LOT OF WASH ACTION WITH VERY LITTLE NOISE!

OUR **QUIETEST** LINE OF DISHWASHERS EVER

Not only do Whirlpool® dishwashers look great, they also don't hinder the lifestyle of your customers with noisy operation. Our line of quiet packages offers multiple levels of noise control.

QUIET PARTNER™ SOUND PACKAGES

The Quiet Partner™ sound packages reduce water and mechanical noise for many levels of quiet operation. Quiet Partner™ IV is our best sound package available with 51 dBA.

NEW OPTIMIZED MOTOR

By providing the right amount of spray power needed for each cycle, the optimized motor helps reduce sound.

NEW SOUND DAMPER

A 2-lb mass damper on the dishwasher pump and motor assembly **stabilizes vibrations** from the motor and helps reduce noise levels.

BLANKETS, INSULATION AND MASTIC

Specialized blankets, door insulation, access panel insulation and mastic help **keep sounds inside the tub** and **block them from entering the kitchen**.

30 DAY MONEY BACK CLEAN & QUIET GUARANTEE*

CLEAN YOU CAN COUNT ON

If your customers aren't completely satisfied that their new Whirlpool® dishwasher is **quieter and cleans better** than their previous model, Whirlpool Corporation will take it back within 30 days of the date of purchase and **refund the full price**.* We'll take care of everything through Whirlpool® customer service. Just have your customers call 1-800-253-1301. **No more trips to the store** for your customers. **No more hassle for you**.

The 30-Day Money Back Clean & Quiet Guarantee is available on Whirlpool Gold® Series models. Check the Whirlpool® Dishwashers Specifications Sheet and Dishwasher Nomenclature to see which models are Whirlpool Gold® Series dishwashers that qualify for this guarantee.

*Available on Whirlpool Gold® Series dishwashers. Visit whirlpool.com for complete details and qualified models.

CLOSE THE SALE WITH ADVANCED FEATURES YOU CAN TRUST

AMERICAN BUILT QUALITY

Whirlpool Corporation Dishwasher Manufacturing Facility (Findlay, Ohio)

For 15 years in a row, the Whirlpool Corporation Dishwashers Manufacturing Facility in Findlay, Ohio has been acknowledged for its quality. In fact, no other dishwasher manufacturer has had fewer repairs.* That's because every unit is tested for repeated use with a 100% functional test and quality assurance sampling before hitting your sales floor.

World Class Appliances
built with
AMERICAN PRIDE
Designed, Engineered & Assembled in the U.S.A.

STRONG PARTS AND LEADING INNOVATION

Whirlpool® dishwashers are designed to endure repeated use. From the door to the wash system, these dishwashers are **crafted to help save your customers money** on maintenance and repairs. **No one has fewer repairs 15 years in a row.***

100% STAINLESS STEEL TUB

A durable stainless steel interior **retains heat to help with drying**.

SECURE DOOR

Heavy-duty hinges and spring anchors add strength. The car door style latch provides a sturdy feel with a solid, reassuring "click."

RECESSED HEATING ELEMENT**

Help protect plastic items from melting with the recessed heating element.

OVERFILL PROTECTION

A float valve senses water level and shuts off water flow when the dishwasher's water level gets too high, to help prevent leaks. Internal software also monitors proper water level to help prevent overfill.

NYLON RACKS

Withstand years of hot water and strong, modern detergents to **protect against rust and peeling**.

MAXIMUM TESTING

Not only do Whirlpool® dishwashers meet our own stringent standards, they also meet UL Certification testing, additional internal safety testing, durability testing, reliability testing and NSF Certification testing (for models with sanitary cycles) at our research centers in Saint Joseph and Benton Harbor, Michigan.

NOTE: Not all features are available on all models.
*According to a leading consumer magazine. **Available on Stainless Steel models only.

NO ONE HAS FEWER REPAIRS

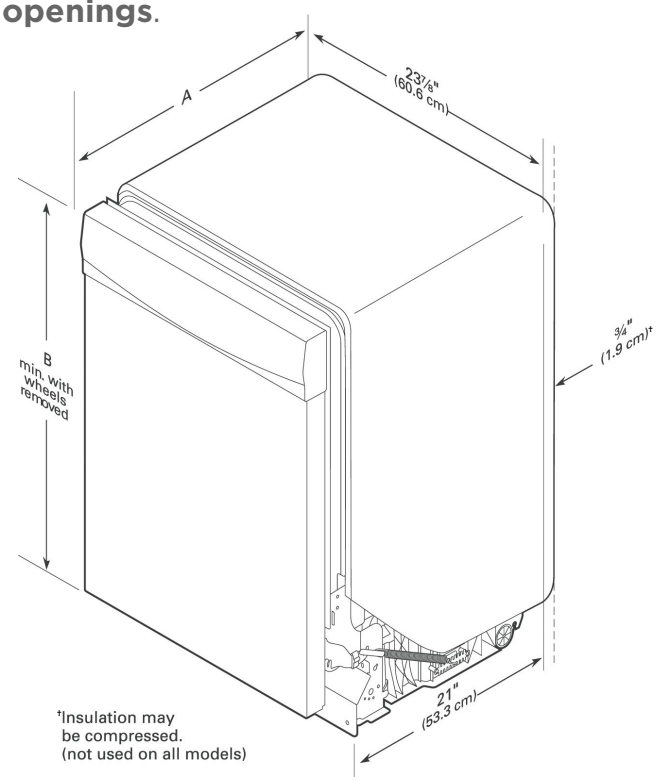
15 YEARS IN A ROW*

THE PERFECT FIT

Whirlpool® stainless steel tub dishwashers can now go where they've never gone before. Their improved design fits in more spaces, so your customers can be confident their stainless steel tub models will fit into their existing cut-outs.

These models fit perfectly into 33-1/2" height openings.

Models: WDT910SAYM and WDT910SAYE



†Insulation may be compressed. (not used on all models)

EASY INSTALLATION

Removable, rear wheels and leveling legs shouldn't get all the credit for our flexible installation. The resource-efficient wash system saves space on the dishwasher's inside. Now your customers can be confident their new models will fit in existing cut-outs regardless of their kitchens' subfloor, and without giving up cleaning capacity inside the dishwasher.

ASK

- Have you recently remodeled your home?
- What is the height of your current dishwasher?
- What kind of floor does your kitchen have?

TELL

You can be confident your Whirlpool® stainless steel tub dishwasher will be easy to install in your kitchen thanks to leveling legs and rear wheels that can be removed when in the up position. Select models even fit into 33-1/2" openings.

SELL

All Whirlpool® stainless steel tub dishwashers feature an improved design that fits more spaces.

*According to a leading consumer magazine.

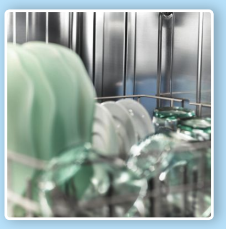
DID YOU KNOW?

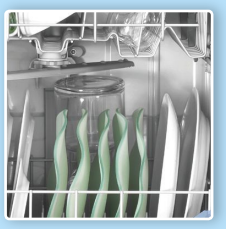
Customers are more likely to buy a dishwasher when they're buying a refrigerator.

A TUB FOR EVERY CUSTOMER



100% STAINLESS STEEL TUB

Customers looking for a model high in style will love the sleek, smooth texture of stainless steel. It also provides **higher heat retention and improved drying performance**.



SLATE PLASTIC TUB

The slate plastic tub **reduces the appearance of tub stains**, and is great for customers who want to keep that sophisticated slate styling looking like new.

WHITE PLASTIC TUB

Whirlpool® dishwashers with white plastic tubs are great for customers who want an affordable option that will stand the test of time and **provide long-lasting durability**.

GET YOUR FACTS STRAIGHT ON WHIRLPOOL® DISHWASHERS

EASY CLEANING

Rinse the filter cup
ONCE A YEAR
for better performance**

DEBUNKING COMMON MYTHS

Make sure your customers know the truth about the industry's most energy-efficient dishwashers* with triple filtration by debunking these common myths.

MYTH: Pre-rinsing is a must.
FACT: Pre-rinsing is not needed to get dishes clean. The filter traps food particles and keeps them from re-entering the dishwasher, so the water and the dishes are cleaner.

MYTH: Filters need to be cleaned after every wash.
FACT: Not true. Filter cleaning depends on frequency of use and soil levels. A dishwasher with typical use and soil levels would need a filter cleaning only once per year if they scrape and rinse before loading.**

MYTH: Cleaning the filter is a hassle.
FACT: Rinsing the filter under running water removes most soils. Tougher soils or calcium deposits from hard water might require the use of a soft brush.

MYTH: Large items get stuck in the filter.
FACT: Three levels of filtration stop large items from falling through the dishwasher.

MYTH: Filters smell bad, even after washing.
FACT: Whirlpool brand dishwashers' resource-efficient wash system is designed to use higher water pressure to help prevent soil buildup on the filters. The heated dry system helps eliminate odors.

THE DETERGENT DIFFERENCE

The detergent your customer uses plays a big role in how dishes look after cleaning. Today's detergents use little to no phosphates which may create a white film or residue on dishes and your customers may blame their dishwasher's cleaning performance. Make sure they know testing has shown some dishwasher detergent tablets and pacs perform better and will help minimize white film buildup.† For optimal performance, recommend a rinse aid and a water softener if your customer has hard water.

NOTE: Not all features are available on all models.
*Based on energystar.gov published annual energy usage of Whirlpool® resource-efficient models versus competitive dishwashers MSRP $749 and below.
**Filter cleaning based on family of four with pre-rinsed items. See Use & Care Guide for details. †According to a leading consumer magazine.
